

**Department as a whole**

**Font:** Helvetica Bold

**Sticker Type:** Die Cut

**Size:** 2.16x4.08

**Quantity:** 300 at \$160

For this piece I wanted to make sure that I included each art form and medium without leaving anything out. I really like the simplicity of the stacked text and I thought it would work best for the department whole sticker.

**3D Design**

**Font:** Lino Chisel

**Sticker Type:** Die Cut

**Size:** 2.16x2.89

**Quantity:** 300 at \$135

When I think of 3D art I mostly think of clay and ceramics. I knew I wanted to make the 3D out of clay but the clay look is a little too gray so I added the color palette behind it.

**Total Spending: \$620**

**2D Design**

**Fonts:** Sketches Bold, Paintbrush

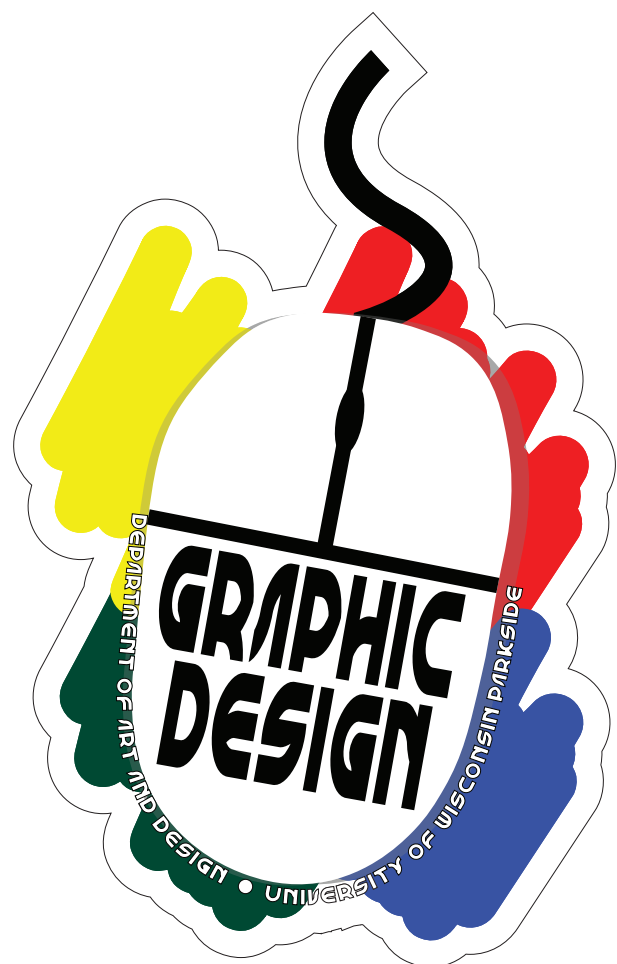

Helvetica Bold, Cooperplate Regular

**Sticker Type:** Rectangle

**Size:** 2.5x3.71

**Quantity:** 300 at \$141

For this piece I knew I mainly wanted to focus on the art forms of drawing and painting because I know that those are the first two things people think of with 2D design.

**Graphic Design**

**Font:** Gaphic Design - Light

**Sticker Type:** Die Cut

**Size:** 2.57x4.43

**Quantity:** 300 at \$184

One of the most important tools for graphic design and digital art is a computer mouse which is why I chose to make a mouse.
